Turnip		S	S	S	S	S	No	No	No	No		No	No	S	S	S	S	S	S	No	No	No	No	No

Key: S = seed; s = set – small bulbs less than 1” in diameter – sets will produce faster than seeds; T = transplant; Cl = clove; Cr = crown; R = root; Tu = tuber
(P) = perennial vegetable, will produce for several years.

* Head lettuce (e.g. iceberg) tends not to grow well under Southern Nevada conditions

** Onions may be started from seeds or sets (see key for definition)

*** Seed potatoes are either small potatoes or potato pieces that have been cut so they include an “eye”

****Sunchoke, also known as Jerusalem artichokes, are an annual; however, they will continue to produce from any roots left in the ground.
